

Here's a classic example of a business started with an intention to meet the demands of the audience for pure drinking water!

The person responsible to identify this need and create a Business around this, Mr. Prateek Vaish is an MBA graduate from Pune and the owner and founder of **Arvi Premium Water**.- Desh Ka Paani!

So, let's take a quick dive into his journey:

### How it all started...

After completing his MBA from Pune, while returning to and during his stay at his native place Narsinghpur, Mr. Vaish noticed something very important and shocking!

The place had a huge shortage of pure drinking water!

Yes, it may seem like a very unnatural phenomenon but the reality is that the place had a huge demand of "pure mineral drinking water" but no one to meet these needs!

**"THAT'S WHEN IT CLICKED ME, I WANTED TO START A BUSINESS TO HELP MY PEOPLE WITH WHAT THEY NEED" -SAID MR. VAISH.**

- With this vision and mission in mind to help his people and meet their demand, Mr. Vaish set out to research and find a solution to this.
- “But there were a lot of challenges I had to face and overcome in order to turn my dreams into reality” -said Mr. Vaish.
- The very first challenge was to arrange the finances to set up something so huge. Well, as an idea, it sounds great to set up a Mineral water plant.

**But in reality, for me, it was difficult to arrange funds.**

Every company out there wanted to sell their Mineral Water Plant Machinery to me, but no one wanted to help me understand the business details, how things work, how can this business idea of mine be profitable as well!"**
